

ELECTRIC TORQUE WRENCHES

STRAIGHT VERSION

- Rotary drive 360 °
- 200 different torque settings
- 2-speed transmission
- Quick and accurate
- Included: electric torque wrench, reaction arm, metal carry case certificate of calibration and torque table.

PRODUCT DESCRIPTION

Electric torque wrenches (nutrunners) have an electronics which switch off the tool when the torque is reached. Accuracy of $\pm 3.5\%$. They are fast, precise, safe and quiet. Power 220/240V. Direction switch (screw / unscrew). The rotary 360° drive makes work extremely comfortable (convenient position). Tools manufactured in Poland by BEWO-TECH company.

ELECTRIC TORQUE WRENCHES

ANGLED VERSION

- Easy rotary drive 360° vertically and horizontally
- 200 different torque settings
- 2-speed transmission
- Quick and accurate
- Included: electric torque wrench, reaction arm, metal carry case, certificate of calibration and torque table.

PRODUCT DESCRIPTION

Electric torque wrenches (nutrunners) have an electronics which switch off the tool when the torque is reached. Accuracy of $\pm 3.5\%$. They are fast, precise, safe and quiet. Power 220/240V. Direction switch (screw / unscrew).The reversible two-way drive (360°) makes the job extremely comfortable (convenient positioning). Tools manufactured in Poland by BEWO-TECH company.
